## Professional Summary

Motivated and versatile software developer with a Master's degree in Computer Science from Queensland University of Technology, and hands-on experience in both full-stack development and project management support. Proficient in **JavaScript, TypeScript, PHP**, and modern frameworks such as **React** and **Laravel** to build high-quality web applications. Comfortable working in Agile environments, with a strong focus on problem-solving, continuous learning, and delivering impactful applications.

## Work Experience

### FONSEKA

#### Junior Software Developer

Feb 2024 - Present / Brisbane, QLD

- Led the development and launch of an **internal project management platform** used by **15+ team members**, improving workflow visibility and enabling clients to track software progress in real time.
- Integrated **Stripe-based payment workflows** into existing apps, resulting in a **15% increase** in user satisfaction and **200+ users** onboarded in the first month.
- Increased test coverage** across all applications to **over 70%**, contributing to improved product reliability and reduced regression issues.
- Contributed to 5+ projects** simultaneously, handling new feature implementation, legacy system upgrades, bug resolution, and pull request reviews.
- Championed clean **code practices** and **maintainable architecture** by implementing unit tests, reviewing code from peers, and ensuring adherence to development standards.
- Collaborated with a **cross-functional team of five** to ensure smooth delivery and alignment with business goals.

**Tech stack: JavaScript, TypeScript, PHP, Laravel, Inertia, React, Next.js, Vue.js, jQuery, Tailwind CSS, Bootstrap, MySQL, Git, Bitbucket**

### Sazae Pty Ltd

#### Assistant Project Manager Intern

Jan 2025 - Apr 2025 / Sydney, NSW

- Supported **requirement analysis, design documentation, and test planning** across **4+ web development projects**, including system upgrades and feature enhancements.
- Created **development tickets** based on specifications and facilitated communication between **project managers** and **developers**.
- Conducted **functional testing**, recorded **test evidence**, managed **bug reporting**, and supported **QA validation** in collaboration with the dev team.
- Delivered **client-facing documentation** such as **user manuals, detailed design specs, and test reports**, incorporating client feedback for final delivery.
