LinkedIn: www.linkedin.com/in/yosukekono | **Github:** <https://github.com/YosukeKono0101>

I'm a driven individual blending expertise in Computer Science and Economics, with a comprehensive skill set in both front-end and back-end development focused on crafting scalable applications with an emphasis on user experience and data management. My adaptability and passion for continuous learning thrive in dynamic settings, where I utilize modern web development tools to deliver innovative solutions. With strong communication skills and a collaborative spirit, I'm positioned to make substantial contributions to projects that seek out novel approaches. Eager to apply my skills in a real-world context, I'm looking for opportunities to contribute to a forward-thinking company's success and further hone my abilities.

SKILLS

JavaScript | C#, Python | React | Node | Vue | Express | AWS | MongoDB | MySQL | Docker | Linux

Adaptability and Eagerness to Learn | Effective Communication and Teamwork | Problem-Solving

PROJECTS

Portfolio Website (<https://yosukekono0101.github.io/Portfolio>)

Car Parts Simple E-Commerce site (<https://github.com/YosukeKono0101/MotorGarage>)

- Developed a specialized online marketplace for car parts and accessories.
- Implemented a product category system for easy navigation and searchability.
- Engineered detailed product pages with images, descriptions, and pricing.
- Enabled a fully functional shopping cart and checkout process.
- Established an admin portal for database management and inventory seeding.
- Utilized: HTML, CSS, JavaScript, Python Flask, SQLAlchemy, SQLite

Music Discovery & Event Hub Web Application (<https://github.com/YosukeKono0101/HarmonyHub>)

- Conceived and developed a comprehensive platform for music enthusiasts to access a wide array of artist information and concert details.
- Facilitated artist discovery with features for top tracks, albums, and concert searches.
- Integrated with LastFM, Ticketmaster, Google Places, and Wikipedia APIs for real-time data retrieval and display.
- Implemented a recommendation system for dining options near concert venues.
- Utilized: Employed HTML, CSS (Bootstrap), JavaScript, Node.js, Express.js, RESTful APIs, AWS S3 for page counter functionality, Docker

Fitness Exercise Explorer Web Application (<https://github.com/YosukeKono0101/MuscleMap>)

- Developed a React-based application dedicated to helping users explore and learn different physical exercises.
 - Provided a rich database of exercise instructions, including videos and detailed guides tailored to specific muscle groups and equipment.
 - Integrated related exercise recommendations to promote varied and targeted workout plans.
 - Ensured an engaging and consistent user experience across devices with a fully responsive design.
 - Utilized: HTML, CSS, JavaScript, React, Styled-Components, React Router, React Slick, React Spinner
-

EXPERIENCE

Receptionist

CityRoute Hotel

Osaka, Japan

Nov 2022 - Mar 2023

The employment from November 2022 to March 2023, coincided with my summer break as a student in Australia, allowing me to work until the start of the new semester in March.

- Managed check-ins and check-outs for international guests, ensuring a smooth and personalized experience
- Created English versions of hotel guides, brochures, and room descriptions to improve accessibility for international guests
- Worked closely with a diverse team of front desk staff, housekeepers, and management to deliver exceptional customer service.

Restaurant Waiter

YAYOIKEN (Japanese Teishoku Restaurant)

Hyogo, Japan

Jan 2021 - Jul 2022

- Managed tasks with speed and accuracy in a high-demand setting, contributing to the restaurant's reputation for quick and efficient service
- Entrusted with key financial responsibilities such as cash management, demonstrating strong attention to detail and integrity
- Worked closely with colleagues to ensure smooth and efficient service, including coordination between kitchen staff and front-of-house to fulfill orders.
